

# LIQUID CHLOROPHYLL SYNERGY

**Chlorophyll, the green pigment in plants that facilitates respiration and growth, is a significant nutrient found in green, leafy vegetables.**

Green vegetables are considered to be the most concentrated nutritional source of any food.

In humans, chlorophyll provides a myriad of benefits:

- Cardiovascular support
- Blood cleansing
- Immune enhancement
- Increased intestinal health
- Overall increased sense of well-being

However, in a society plagued with deadlines and increased time demands, many diets suffer, often leading to meals lacking in the green, leafy vegetables that provide this health enhancing compound.

Sourced from mulberry leaves and alfalfa, Synergy's Liquid Chlorophyll is a rich, highly-concentrated combination of chlorophyllin (sodium copper chlorophyllin) and peppermint oil. Chlorophyllin has been shown to provide valuable DNA protection against insults, such as ionizing radiation and chemical mutagens that disorganize genes and can further lead to significant health complications.

In addition, Synergy's Liquid Chlorophyll also contains Barley, a grass that has been shown to support healthy cholesterol levels while acting as a good source of vitamins and proteins. Studies have also supported the ability of barley grass to scavenge free radicals and act as a powerful antioxidant within the body.

Liquid Chlorophyll serves as a perfect companion to Synergy's heart healthy products. Simply add two teaspoons of Synergy's Liquid Chlorophyll to 8 ounces of water and turn your ordinary drinking water into a heart-enhancing, body-cleansing beverage.\*

ITEM NO. SU74888 | 24.7 FL. OZ. (730 ML)

## Benefits

- Chlorophyll helps promote the natural blood-cleansing functions of the body\*
- Chlorophyll promotes the elimination of toxins from the body\*
- Chlorophyll helps protect and support healthy cells\*
- Chlorophyll inhibits LDL oxidation\*
- Chlorophyll helps to maintain low homocysteine levels\*
- Chlorophyll promotes a strong immune response\*
- Chlorophyll may offer circulatory system support\*

## Directions

For adults: Take two teaspoons (10 ml) in a glass (240 ml) of water, two times a day; For children below 12 years old: 2.5 ml in half glass of water, two times a day. Refrigerate after opening.

As with any nutritional product, please consult your physician before use, especially if pregnant, lactating, or have a known medical condition.
